## TO WHOM IT MAY CONCERN

I would like to confirm, that MAREL Service company have performed electrical works on m/v Nofit Husmer. The job was performed with the highest possible quality, the electricians provided by MAREL was really fast, solid and hard-working.

Moreover-the time of reaction was extraordinary fast, the engineers were sent to the foreign country immediately after a single call and were ready to stay onboard several days longer, that it was previously contracted.

I can recommend MAREL Service company as the firm, that is flexible, able to react in no-time, hiring high-class electrical experts.

Best regards,

  
Andreas Potamitis  
Technical Manager
